

My Favorite Job Searches

The Saved Search or My Favorite Job Search function saves your **job search criteria**, not your **job search results**. A Saved Search allows you to run the search at any time using the same search criteria to get the most current results. You can also have new jobs that match your search criteria emailed to you daily or weekly.

You may have as many saved job searches as you wish.

Save a Favorite Job Search

1. Login at <https://jobcenterofwisconsin.com> with your username and password and go to the Job Search function.
2. Select the search criteria you want and click on the **Run Search** button.

A screenshot of the Job Search interface. At the top right, there is a link for "Need help?". Below it, a "Tip" box suggests using the Advanced Search. The main area has three tabs: "Keyword Search", "Advanced Search", and "Map Search". Under "Keyword Search", there is a text input field containing "customer service". To the right is an "Occupation Category" dropdown menu. Below the keyword field is a "County" dropdown menu with a list of counties: Milwaukee, Monroe, Oconto, and Oneida. To the right of the county list is a "Listed Within" dropdown menu. At the bottom right, there is a green "Search Jobs" button with a magnifying glass icon.

- Review the Job Search Results. Are the jobs listed the type of job you are looking for? If yes, go to step 5. If no, go to step 4.
