## **Important! Changes in WJOS**

Four changes went into effect over the weekend:

- An edit was added to require both Profile Trade Name and Profile Legal Name when a Company is added during WJOS job order entry.
- A processing status bar has been added when a job order is loading. This will prevent staff or employers from keying or clicking on something before the job order is completely loaded.
- When ERS is retrieved from the WJOS menu, a second window will open.
- The Company's web site address is now a hyperlink on the job order screen. This change has not been made to Internet or Seasonal JobNet yet.
