

The following changes to WJOS, Internet/Seasonal JobNet, TouchScreen JobNet, and AJB went into effect last night;

- **All WJOS job orders display on JobNet and America's JobBank (AJB)**
 - The option to not display a job order on America's Job Bank has been removed
 - All WJOS job orders will be displayed on AJB. Previously only those job orders categorized as 'Regular' or 'Foreign Labor Certification' were sent to AJB. Now all WJOS job orders will display on AJB without exception. Employers that don't want to be disclosed to job seekers (suppressed job orders) will display the contact information for the local Job Center.

- **Professional Licenses/Certifications**

The field label 'Licenses/Certifications' has been changed to Professional Licenses/Certifications on WJOS, Internet/Seasonal JobNet, and TouchScreen JobNet to clarify which type of Licenses/Certifications are appropriate to enter in this field.

- **"Base on Experience" has been added to the 'Maximum Pay Unit of Time' drop down box.**

This entry can also stand alone, entries in 'Minimum Pay Amount' and 'Unit of Time' are not required. This change affects WJOS, Internet/Seasonal JobNet, and TouchScreen JobNet.

- **Temporary Job End date**

The following phrase (Job ends MM/DD/YYYY) will display after the Duration/Hours per week on Internet/Seasonal JobNet, TouchScreen JobNet when a temporary job end date is entered on a WJOS job order.

- **Vehicle, Driver's License, Endorsement, and Age**

Previously if these fields were selected on a WJOS job order, they displayed as follows:
Vehicle: No Vehicle Requirement
Driver's License: No Driver's License Requirement
Endorsements: No Endorsement Requirement
Age: No Age Requirement

The word Requirement has been changed to Requested. This change affects WJOS, Internet/Seasonal JobNet, and TouchScreen.

- **Company Web Site**

The company hyperlinked URL has been added to Internet/Seasonal JobNet and WJOS Preview.

- **Company Web Site Edit**

In the past staff and employers were entering WebSite information incorrectly. The most common has been the inclusion of spaces in the Web address. An edit now alerts the user that spaces are not allowed.

- **State Drop Down boxes**

All state drop down boxes in WJOS and ERS have been changed to all 50 states.

- **ERS Contact Detail Page**

This page now identifies whether or not the employer contact is registered to use WJOS

- **Link to ERS Manual**

A link to the ERS Manual has been added to the ERS Menu.

- **Fixes for Employers WJOS Employer-side Registration Request for Contact**
 - When using Netscape as an employer, the value selected in the state dropdown didn't display – It now does.
 - The selected Role Title or Business Area didn't display the values selected if the employer goes back to the Registration Screen before approved by staff. - It now does.

- **Fixes for WJOS Staff side**
 - All employer comments in the comment box can now be read on the Request for Contact page.
 - New Job Order on-line reports now default to the descending sort.
