Allowing Pop-ups in JobNet Business (for staff using Windows XP)

Recently some DWS staff received new PCs with Windows XP and are experiencing problems "saving" in JobNet Business. Following is an explanation of what happens in XP and what to do about it.

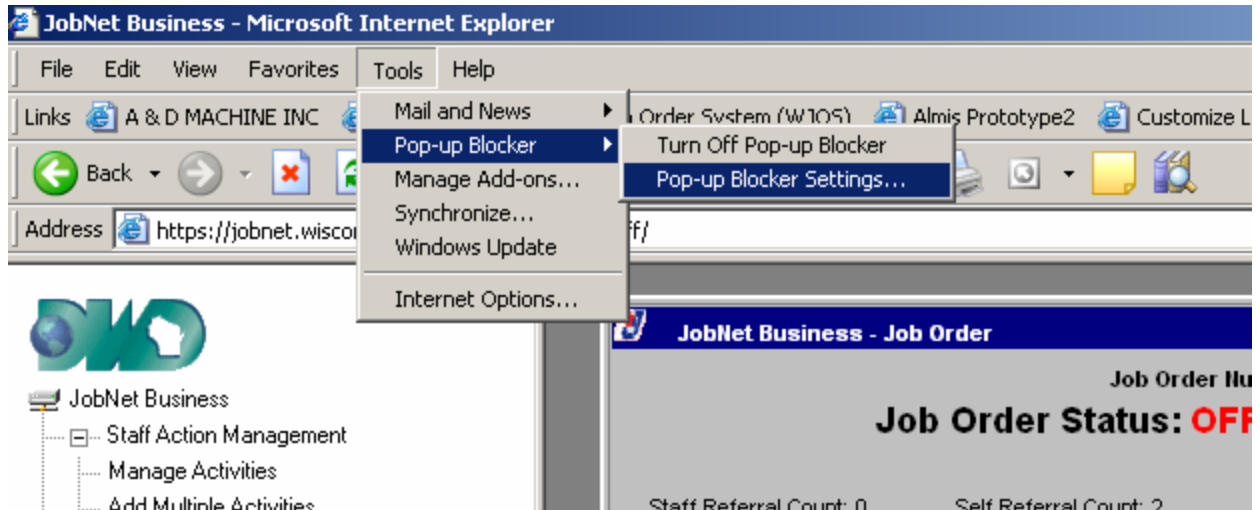

- When a pop-up blocker is active and blocks a pop-up, a yellow bar appears on the screen that starts with the text "Pop-up blocked".

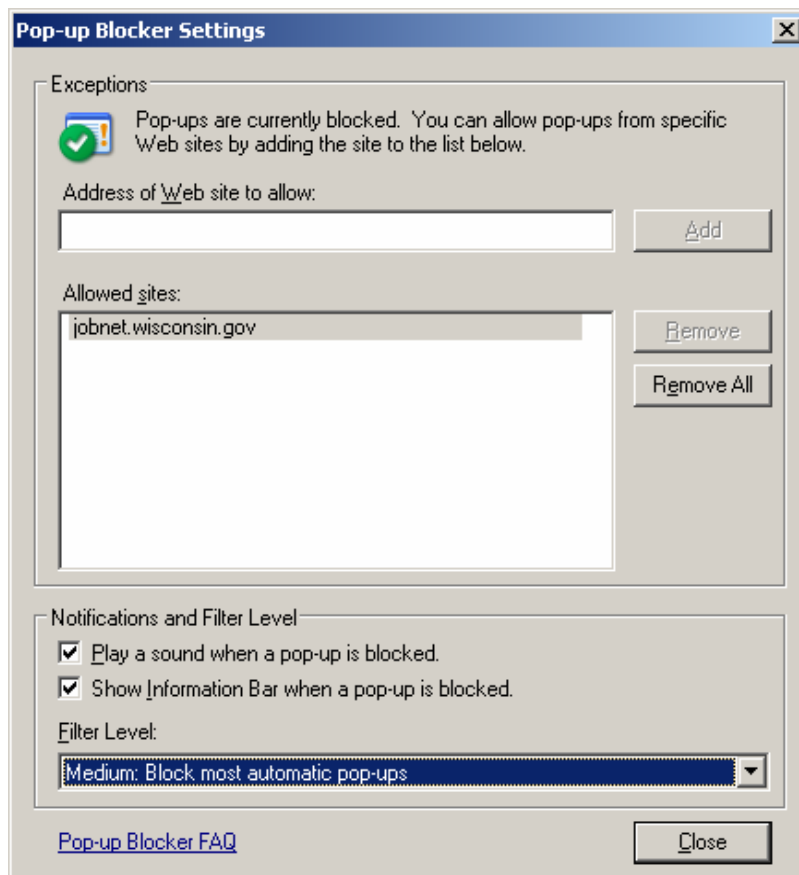

- When you right click on the yellow pop-up blocker bar, a menu is displayed. Choose "Always Allow Pop-ups from this Site...". The pop-up blocker should not execute again for the site being accessed.

- Another method for stopping the pop-up blocker from executing for a particular site is to go to the Tools menu in Internet Explorer. Click on Pop-up Blocker, then on Pop-up Blocker Settings.

- On the Pop-up Blocker Settings screen, enter the website you want to allow pop-ups from into the list of allowed sites. Click on the Close button.

=====

This message has been posted to the web site (<http://www.wisconsinjobcenter.org/jobnetbiz>) that holds the JobNet Business announcements. The archive holds the current edition, and all previous editions.

These editions are delivered in Adobe PDF format for on-line reading or downloading. The web site has a link to the DWD Viewers Download Page (<http://dwd.wisconsin.gov/viewers.htm>) to find links to software which may be necessary to view the publications.
