## Job Center of Wisconsin Change

Within the last few minutes a change was made to Job Search by Location. When a customer searches by zip code in the Location field, a keyword must also be entered. The following message is displayed to the customer if a keyword is not entered.

Job Center of Wisconsin users may have experienced slowness this morning when using the Job Search feature. The Zip code/Keyword change was necessitated by the load on the server. Performance in other DWD systems was also affected. Staff and customers who were using Job Center of Wisconsin at the time the change was made were "timed out". We apologize for the inconvenience.
