Map Search Fixed

Earlier today some staff reported problems with the Map Search occupation counts for some counties. The number listed in the 'View Jobs' column didn't equal the number of jobs displayed on the Job Search Results page. For example, in the example shown below, the Architecture and Engineering category shows 3 jobs, yet when you click on the '3' link, the Job Search Results shows 2 jobs.

The problem was caused by the receipt of Job Central listings for out-of-state border counties for the first time last night. Some of the out-of-state counties share the same county number as Wisconsin counties.

The problem has been resolved and will be fixed this evening.
